# HET Rebate

UP TO  
**\$150**

## List of Qualifying Toilet Models

Fall 2009

### HET Rebates Available

Get up to \$150 back on the purchase of qualified, high-efficiency toilets (HET). Contact your water or sanitation service provider for more information and an application for the rebate before purchase. Requirements and restrictions apply and vary by agency.

This list of qualifying toilet models is updated periodically and is valid for the service providers listed below. To view or download the most current list, visit [www.sonomacountywater.org/rebates](http://www.sonomacountywater.org/rebates) or call.

### Abbreviations

WS - WaterSense Labeled Toilet

MaP Score - Maximum Performance Testing Score

NM - Not Measured for maximum performance, flushes at least 350 grams to meet EPA WaterSense standards

DF - Dual Flush

PA - Pressure Assist

GF - Gravity Assist

EL - Elongated Bowl

RF - Round Front Bowl

ADA - Americans with Disabilities Act Compliant

## HIGH-EFFICIENCY TOILET

Uses 20% LESS water than an Ultra Low Flush Toilet

### Maximum Performance (MaP) Testing - a new and better measurement of toilet performance!

Many toilet fixture performance tests exist, including proprietary tests by the fixture manufacturers, tests by Consumer Reports magazine, and the tests mandated by the plumbing codes for fixture certification. Few of these, however, use test media that closely resembles the real "demands" upon a toilet.

The Maximum Performance (MaP) testing project was undertaken in 2003 in order to identify how well popular toilet models perform using a realistic test media. A new testing protocol, cooperatively developed by water-efficiency and plumbing fixture specialists in the U.S. and Canada, incorporated the use of soybean paste as a test media, closely replicating the "real world demand" upon fixtures. This protocol has been adopted by the U.S. Environmental Protection Agency for their WaterSense program.

The test media is measured in grams and toilet performance is determined by how much test media it can successfully flush. Toilets on this list of qualifying models have a MaP test performance of at least 500 grams or are WaterSense labeled.
