City of Sebastopol High-Efficiency Toilet Rebate Program

The City of Sebastopol offers a rebate for installation of qualifying high-efficiency (HET) toilets in the form of a credit on the water and sewer utility bill of City Residents. Residents should first notify the Sebastopol Building Inspection Department of their desire to participate in the program and arrange for a site inspection. Rebates are given for replacement of older, 3.5 gallon - 7 gallon per flush toilets with models that use 1.6 gallons per flush or less. HET units on the “List of Qualifying Toilet Models” will qualify the Sebastopol City Utility Account holder to a one-time credit of \$150. Other toilet models that are rated at a usage of 1.6 gallons per flush or less will qualify for a credit of \$75.

Contact the Sebastopol Building Inspection Department at **823-8597** for more information.

Please allow up to 60 days from final inspection for credit to appear on your utility bill. Program participants should understand that installation of a HET may not result in lower water bills and that the City of Sebastopol does not warrant any toilet or installation to be free of defects, the quality of workmanship, or the suitability of the premises for the toilet installation. The participant further agrees to hold harmless the City of Sebastopol and its directors, officers, and employees against all loss, damage, expense and liability resulting from the loss, destruction or damage to property arising out of or in any way connected with installation of a toilet connected with this program.
