I filed the paperwork to make a non-profit out of our K-Tech Automotive car giveaway program. We're calling it Compassionate Cars. We fix up and give cars away to people in need, and I want to expand it to get donations to help who need it get their cars fixed. Right now, we need 2000 and new cars to fix up and give away. We set a goal to give away 10 cars this year. We include a 1-year service package, smog and registration paid.

Issue of housing is MUCH larger than just the panel's focus on homelessness. Without diminishing the needs of the homeless, we need to expand the conversation to include a wider focus on how Sebastopol can attract and build permanent supportive affordable housing for families and seniors at least enough to meet the new RHNA requirements from the state.

Making sure everyone knows (from comments at the last panel) about the Sebastopol Area Time Bank, a way for community members to provide SERVICES to other community members through "requests" and "offers" that form the basis of an "exchange" -- with no money changing hands. We bring together like-minded individuals for connection and social events, too. The Time Bank is run by volunteers who help our members use our website to record requests, offers and exchanges.

Have you heard of the RCPA?

The Regional Climate Protection Authority, RCPA, was formed in 2009 to coordinate countywide climate protection efforts among Sonoma County's nine cities and multiple agencies.

The RCPA fosters collaboration, helps to set goals, pools resources, formalizes partnerships, and works across silos.

The RCPA aims to create local solutions to complement State, Federal, and private sector actions – all showing that a better future with lower emissions is possible.

It has worked with many organizations and individual to create a Climate Emergency Strategy Plan to help us making these painful changes together.

I filed the paperwork to make a non-profit out of our K-Tech Automotive car giveaway program. We're calling it Compassionate Cars. We fix up and give cars away to people in need, and I want to expand it to get donations to help who need it get their cars fixed. Right now, we need 2000 and new cars to fix up and give away. We set a goal to give away 10 cars this year. We include a 1-year service package, smog and registration paid.

Issue of housing is MUCH larger than just the panel's focus on homelessness. Without diminishing the needs of the homeless, we need to expand the conversation to include a wider focus on how Sebastopol can attract and build permanent supportive affordable housing for families and seniors at least enough to meet the new RHNA requirements from the state.

Zero Waste? I have to laugh. Consider the "recycling program" of company, Republic, running our waste and recycling program. Plastic!!! Styrofoam! How is that being addressed. Shouldn't any packaging be required to be recycled? Legislation happening?

Have you heard of the RCPA?

The Regional Climate Protection Authority, RCPA, was formed in 2009 to coordinate countywide climate protection efforts among Sonoma County's nine cities and multiple agencies.

The RCPA fosters collaboration, helps to set goals, pools resources, formalizes partnerships, and works across silos.

The RCPA aims to create local solutions to complement State, Federal, and private sector actions – all showing that a better future with lower emissions is possible.

It has worked with many organizations and individual to create a Climate Emergency Strategy Plan to help us making these painful changes together.
