PUBLIC NOTICE

May 11, 2021

Repaving Local Streets

The City of Sebastopol has awarded a contract to Argonaut Constructors for the complete reconstruction of several city streets. The work will begin on June 1, 2021 and is expected to be completed by August 15, 2021. The streets to be reconstructed include Hansen Lane, Michael Place, Kathleen Court and Cleveland Avenue.

To reconstruct the streets, the contractor will dig out half a street at a time and construct a new pavement base section between the curbs. When all the pavement base is in place and approved, the contractor will pave the final asphalt covering. At the end of each construction day, the whole street will be open, although there will be a difference of about 3 inches between the new pavement base and the old pavement. The contractor will fill this difference with temporary asphalt ramps so that all driveways will be open at the end of each day.

During the construction period, the contractor will notify residents of impacted streets regarding the construction schedule. On those days, parking on a particular stretch of the street will be prohibited. When a street is under construction, half of the street will be closed to traffic, and the other half will be limited to one-way traffic, controlled with flaggers. Mail deliveries, emergency vehicles and trash pickup will be accommodated.

The contractor will work Monday through Friday from approximately 7:00 am to 4:00 pm depending on circumstances. During the day, the City asks that residents limit their trips into and out of the work zone to reduce traffic issues.

Questions can be directed to Argonaut Constructors, Dan Giordani, Project Manager, at (707) 542-4862 or the City of Sebastopol Engineering Division at (707) 823-2151.
