PUBLIC NOTICE

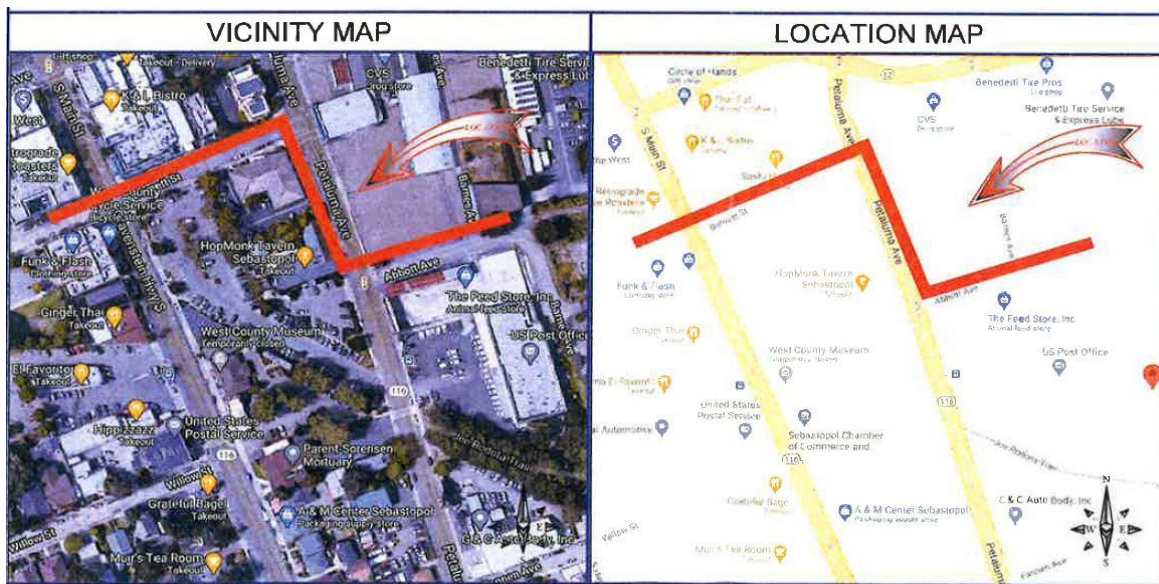

January 26, 2021

Telecom Work in the Downtown Area

Sonic Telecom will be performing work in the downtown area to install required upgrades to their infrastructure. The proposed start date for this work is scheduled for **February 4, 2021**.

This work was originally planned for late last year but was held off by request from Public Works due to a proposed holiday moratorium for any work not considered as an emergency in the downtown areas. The contractor has been advised of a minimum 48 hour notice to all affected businesses in the area and is aware of the sensitive nature of parking availability.

Questions related to this project can be directed to **Sonic 707-522-1000 reference Project #36**

Thank you,

A handwritten signature in black ink, appearing to read "Dante Del Prete".
