CITY OF SEBASTOPOL ACCESSORY DWELLING UNIT (ADU) PRIMER

SEBASTOPOL SUPPORTS AFFORDABLE HOUSING

To address the housing shortage, the City of Sebastopol has made it easier than ever for home owners to build an Accessory Dwelling Unit (ADU), or a Junior Accessory Dwelling Unit (JADU).

Fees have been lowered

Requirements have been eased

ACCESSORY DWELLING UNITS CAN TAKE SEVERAL FORMS:

1. Detached: Building a separate unit on the property.

2. Detached: Converting an existing smaller independent accessory structure, such as a detached garage.

3. Attached: Adding a structure attached to the existing house or on top of an attached garage.

4. Attached Interior: Remodeling the interior of the existing house (reconfiguring existing habitable rooms). A "Junior Accessory Dwelling Unit," or JADU can also be created by converting an existing bedroom.

STANDARDS:

- The ADU is generally 840 square feet or less. On lots 10,000 square feet or larger an ADU may be up to 1,000 square feet.
- For attached ADUs, the increased floor area (living space) cannot be more than 50% of the existing living area.
- The height of one-story units is not more than 17'.
- The height of two-story units is not more than 25'.
- The foundation is permanent (for example, a concrete slab).
- The unit must be connected to water, sewer, electricity and gas.

Setbacks: (Space between the unit and the property boundary):

1. One story units:

- Front yard setback the same as that required of the main building.
- Side and rear setbacks may be half the main building's requirement, but no less than 5'.

2. Two-story units:

- Same setbacks as main building.

1. An existing garage:

- One story unit: no setbacks required for a garage converting to an ADU.
- Two story unit built above an existing garage:
 - A setback of no more than 5' will be required from the side and rear lot lines.

Fire sprinklers may be required (check with the Building Dept.).

Some accessory structures may not qualify:

- Trailers, Recreational Vehicles and similar wheeled structures
- Garden sheds are typically not habitable

- ADUs authorized after July 1, 2017 may not be rented to short-term tenants (less than 31 days) such as AirBNB or VRBO. In limited circumstances, an ADU authorized after July 1, 2017 may be rented (i.e. on a short-term basis while the permanent resident is away). Such temporary use will require a Use Permit and a public hearing before the Planning Commission.

- ADUs may not be sold separately from the main house.

Rental and resale restrictions do apply
