CITY COUNCIL
AGENDA ITEM

Meeting Date: April 16, 2019
 To: Honorable Mayor and City Councilmembers
 From: Dante Del Prete – Public Works Superintendent
 Ana Kwong – Finance Director
 Subject: Approval of Job Description and Pay Rates and Ranges for the Management Analyst Position
 Recommendation: That the City Council Approve the job description for a Management Analyst position and its respective salary range.
 Funding: Currently Budgeted: Yes No N/A
 Net General Fund Cost:
 If Cost to Other Fund(s),

INTRODUCTION:

The item is to request that the City Council Approve the job description for Management Analyst within the Public Works Department/Engineering Division.

BACKGROUND:

The Public Works Department periodically reviews job descriptions and specifications and either updates them or creates new positions to more accurately reflect the current needs of the departments and duties of the staffing level. The Public Works Department/Engineering Division currently have two administrative staff personnel: One (1) full-time Senior Administrative Assistant/Department Technician and one (1) half time administrative assistant. Over the last few years, the role of the Senior Administrative Assistant/Department Technician has continued to grow and develop in response to advancements in the use of technology for capital improvement projects, advanced and critical contract and permit regulatory requirements, provides assistance in analyzing, developing and implementing capital programs/projects, contract management to include responsibility for reviewing certified payroll and ensuring contractor is reporting certified payroll to Labor Commissioner using the Department of Industrial Relations (DIR) online system. These are just a few of the additional responsibilities that have been taken on by this position.

DISCUSSION:

The level of responsibility initially assigned to the Senior Administrative Assistant/Department Technician position within the Public Works Department and Engineering Division is no longer relevant and suitable for the expanded level of technical expertise and responsibilities required for the position.

Furthermore, this position's responsibility in capital project and risk management is critical to the City of Sebastopol. Therefore, it requires a high level of engagement to verify that the correct insurance and endorsements for a contractor are submitted for City projects properly. Failure to do so could lead to significant loss and/or greatly increasing the liability to the City. As a result, to establish proper reporting of certified payroll by contractors to the State as well as overseeing other regulatory reporting to outside agencies. To better meet the City CIP needs above and beyond routine tasks, staff is recommending a reclassification of the position to a Management Analyst that would elevate the position beyond its current level, enabling higher level assignments to support the management team.

In addition, one of the main goals of the reclassification of this position is to improve and create a clear and easy to use Capital Improvement Program Report that will produce detailed budget reports, improve and maintain financial reporting processes for construction projects and work to streamline and create efficiency processes Citywide. In order to implement the change, staff is seeking Council to approve the attached job description for the Management Analyst position.

California Public Employee's Retirement Law at Section 570.5 of the California Code of Regulations Title 2 requires the City Pay Rates and Ranges document published on the City's internet site to be approved, in its entirety, by the City Council each time a modification is made. Attached to this agenda item is the updated City of Sebastopol Current Pay Rates and Ranges effective May 1, 2019 that incorporates the changes for a Management Analyst position.

FISCAL IMPACT:

Salary and benefits for this position will be absorbed in the FY 2018-19 City Budget.

RECOMMENDATION:

That the City Council Approve the job descriptions for the Management Analyst position and salary range.
