BACKGROUND

The United States of America has confirmed cases of individuals who have a severe acute respiratory illness caused by a novel (new) corona virus ("CO VID-19" or "the virus") first detected in Wuhan, Hubei Province, People's Republic of China ("China"). The virus was first reported in China on December 31, 2019. As of March 2, 2020, the World Health Organization ("WHO") has reported more than 3,000 deaths stemming from approximately 89,000 confirmed cases of COVID-19 and the virus is present in 67 countries. The number of confirmed cases has continued to escalate dramatically over a short period of time. World Health Organization (WHO) officials now report that sustained human-to-human transmission of the virus is occurring. Transmission from asymptomatic individuals has been documented. Suspected community transmission of the virus is occurring in the United States. Although the majority of individuals infected with COVID-19 recover from the disease without special treatment, there is significant potential for serious infection and death. On January 30, 2020, the WHO declared the COVID-19 outbreak a public health emergency of international concern, and on January 31, 2020, the U.S. Department of Health and Human Services declared a Public Health Emergency for the United States of America. On March 11, 2020, WHO declared that the Novel Coronavirus COVID-19 Outbreak a Global Pandemic. The United States Centers for Disease Control and Prevention (CDC) has determined that the

virus presents a serious public health threat, requiring coordination among state and local health departments to ensure readiness for potential health threats associated with the virus. The County's Public Health Officer has found that the conditions constituting a threat to community health, including a presumptive case of community infection, may be present in the County warranting a proclamation of a Local Health Emergency.

DISCUSSION:

The threat of the COVID-19 Coronavirus will last an indefinite period, and could significantly impact the health and safety of City employees and residents as well as critical public services. Conditions may require the provision of additional public safety and emergency services. The conditions of extreme peril warrant and necessitate the proclamation of a Local Emergency to enable the City of Sebastopol and other local government entities to adequately plan, prepare and preposition resources to be able to effectively respond to the threat posed by COVID-19, and to warn City of Sebastopol residents and visitors of the threat posed by COVID-19 and to enable them sufficient time to plan and prepare.

Section 2.36.060 (a) of the Sebastopol Municipal Code empowers the Director of Emergency Services to Request the City Council to proclaim the existence or threatened existence of a "local emergency" if the City Council is in session, or to issue such proclamation if the City Council is not in session. Whenever a local emergency is proclaimed by the Director, the City Council shall take action to ratify the proclamation within seven days thereafter or the proclamation shall have no further force or effect.

Fire Chief Bill Braga, Acting as Director of Emergency Services, signed an Emergency Proclamation on March 12, 2020 (Attachment 1) which found that conditions of extreme peril to the safety of persons or property within the City exist, which has been caused by the Global Pandemic of the COVID-19 Coronavirus.

The Mayor, Vice-Mayor and City Administration met and directed a number of measures be taken to safeguard the public, City staff, and Council members, including reducing or eliminating unnecessary travel, limiting large public meetings, limiting exposure and practice by what is being called "social distancing", telecommuting for Department Directors, and reducing Council meetings to essential items only as well as all meetings to be virtual. We feel that the prudent and responsible course of action is to do everything that we can to limit the spread of the virus.

The City Council is requested to adopt the attached resolution (Attachment 2) Extending the Existence of a Local Emergency caused by the Novel Coronavirus COVID-19 Global Pandemic.

Public Notice:

This item was noticed in accordance with the Ralph M. Brown Act and was available for public viewing and review at least 72 hours prior to scheduled meeting date.

Fiscal Analysis:

Extension of the Local Emergency may provide the opportunity for the City of Sebastopol to get reimbursed by Federal or State Agencies for with costs associated with the Novel Coronavirus COVID-19 related impacts. There is no fiscal impact to the City tonight with approval of this item.

RECOMMENDATION:

That the City Council adopt a resolution Extending the Declaration of a Local Emergency issued by the Director of Emergency Services.
