Subject: no please to Smart water meters
Date: Sunday, December 19, 2021 3:09:03 PM

Dear Sebastopol City Council and Staff,

Please do not approve the proposed purchase of smart water meters. Adding 3000 smart water meters will increase water rates and add more EMF and RF radiation in Sebastopol near to people's homes.

In 2013 Sebastopol banned smart meters due to "matters of public health, safety and consumer protection."

Please step up again to protect our lovely little town, our children and all.

With best regards,
Nancy Hubert
