Subject: smart meters for water meters
Date: Monday, December 06, 2021 3:58:28 PM

Dear City Council:

For over 50 years now since I was trained by the US Military in the use of Radiation as a Weapon of WAR, I have opposed the use of radiation for all purposes. RADIATION KILLS and that is why the US Military uses it. Radiation is itself a Crime Against Humanity among other crimes. You will be subjecting yourselves to arrest, trial, conviction and sentencing. Is this what you want? Suppose you make a few million dollars for Sebastopol's General Fund, is that worth going to prison for, or worse? Do you care how many people you make sick or how many people you kill? Do you care about violating the Constitution of the United States of America? Do you care about violating the Constitution of the State of California? Do you care about violation your own ordinances and policies? Do you care that most people here in Sebastopol do NOT want more radiation in their lives and don't want radiation meters on water meters? I dare you to think about my questions and I double dare you to answer them. I know I've mentioned it before, but you all need to go out and buy a copy of Radiation & Human Health, by Dr. John Gofman and learn the true facts about the dangers of radiation. I pray to GOD that he visit you in your dreams before you vote on this matter and that he puts seeds of doubt in your minds, such that you at least decide to study the issues I raise here before making the deadly decision you seem poised to make.

I love you all and wish you a Merry Christmas and a Happy New Year.

Alan Horn - member of EMF Safety Network and Sebastopol Water Information Group (SWIG)
