Subject: Proposed homeless encampment
Date: Saturday, October 30, 2021 8:14:03 AM

Hi there,

I just read the article in the PD about the plan to move the homeless encampment to the community center. What I would like to know from you all and my biggest concern is, what happens to youth baseball??? Our kids have suffered the most during this pandemic and for my 3 boys their saving grace has been being able to play baseball. It's bad enough that we have to drive by dozens of motorhomes, my children have seen half naked people, drugs and filth, now they will take over the parking lot and baseball fields? What will happen on Morris if this happens? Will they be forbidden to park there now or will a new mess of motorhomes move in? This is very very concerning to me, I look forward to hearing what the plan will be for our kids, the most important part of our community.
