Subject: Crestwood Behavioral Health, Inc

These are my comments on the proposed acute psychiatric inpatient facility.

1. Wages should be paid at a prevailing wage rate as Crestwood derives a large portion of its revenue from Medicare. Personnel working at the facility should be able to live in Sebastopol.
2. Public safety considering traffic, as patients may/will be admitted on a 24 hour basis. Also are there any public safety issues from this be a lockdown facility?
3. Any neighborhood noise issues should be considered.

Thank You for your consideration.
